Security Investigation Report

Investigation ID	7
URL	https://erp.kec.ac.in/public/login
Hostname	erp.kec.ac.in
Risk score	5/100
Risk level	Low
Created at	2026-10-30 19:57:00

Local URL Analysis Findings

[

"Potentially sensitive terms appear in the URL: login"

]

Threat Intelligence

Source: URLhaus

Status: not_listed

Message: URL was not found in URLhaus.

Details: No data available.

AI Evidence Verification

{

"confidence": "Medium",

"supported_claims": [

"The URL is https://erp.kec.ac.in/public/login.",

"The hostname is erp.kec.ac.in.",

"The heuristic score is 5.",

"The heuristic level is Low.",

"Indicators include potentially sensitive terms appearing in the URL: login.",

"Threat intelligence source URLhaus indicates the URL is not listed."

],

"unsupported_claims": [

"The website is malicious.",

"The website is safe.",

"The website is used for phishing."

]

}

AI Risk Assessment

{

"rationale": "The URL (https://erp.kec.ac.in/public/login) has a heuristic score of 5 (Low) and is not listed in URLhaus. The only indicator is the presence of the word \"login\" in the URL, which is common for legitimate authentication endpoints. No supported claims indicate malicious activity, and unsupported claims are unverified. Thus, the risk remains low.",

"risk_level": "Low",

"risk_score": 10,

"recommendations": [

"Ensure the login page uses TLS and proper certificate validation.",

"Implement rate limiting and multi■factor authentication to protect against credential■stuffing attacks.",

"Regularly review server logs for abnormal access patterns.",

"Keep the underlying application and its dependencies up to date to mitigate known vulnerabilities."

]

}

AI Recommendations

[

"Ensure the login page uses TLS and proper certificate validation.",

"Implement rate limiting and multi■factor authentication to protect against credential■stuffing attacks.",

"Regularly review server logs for abnormal access patterns.",

"Keep the underlying application and its dependencies up to date to mitigate known vulnerabilities."

]

Executive Summary

The URL https://erp.kec.ac.in/public/login has a low heuristic score (5) with only the ‘login’ term as an indicator. No malicious activity is supported by the evidence; the URL is not listed in URLhaus. The risk assessment indicates a low risk level. External reputation checks beyond the provided source were not performed.

Report Limitations
